## 1.4 Important information about these packages

1. These phone packages are only available to residential customers in Great Britain, with a suitable phone line at the address where the service is provided.
2. All prices listed include VAT at 20%, unless stated otherwise.
3. These phone packages do not have a fixed term, meaning that there are no early termination charges if you decide to change package or take your phone service to another provider.
4. About bills: the default option offered to all new customers is monthly e-bills; a monthly paper bill can be requested at a charge of £2 per bill. Monthly bills are issued on a 30-day cycle, plus or minus a few days, but the first bill may take up to six weeks.
5. The standard payment method available for new customers is Direct Debit.
6. Please be aware that phone customers joining SSE from May 2018 cannot make calls to premium rate numbers beginning with 09.
7. No part charging for inclusive calls: when calls that could be inclusive run over more than one charge period, they will be charged according to the rate applicable when the call started. For example, in the Evening and Weekend package a call starting before 7am and ending just after 7am on weekdays will be considered inclusive. Likewise, for this package, if a call is started at 6.50pm

and continues until 7.05pm, then the call will be charged at the standard rate for its entire duration of 15 minutes.

8. For calls made to UK mobile numbers, where not inclusive, the charge will be the same no matter where the mobile is located (e.g. abroad) at the time of the call. Numbers starting with 070 are classified as personal numbers and are not charged at the standard mobile rate. Calls to 070 numbers can cost a maximum of 99p for a one minute call, with subsequent minutes costing a maximum of 76p per minute.
9. Notification of any change to prices or other information will be listed in this area of our website: [sse.co.uk/help/phone-and-broadband/price-changes](https://sse.co.uk/help/phone-and-broadband/price-changes). We suggest that you check this page regularly. Please note that only significant adverse changes (including any increase in the core monthly charges) will be notified to you in writing a month before they take place. All other changes will be notified only on our website.
10. It is important that you are aware of our:
  - General Terms and Conditions for the Supply of fixed line telephone service;
  - Phone Service Code of Practice;
  - Complaints Code;

These documents can be found on our website in this area: [sse.co.uk/help/phone-and-broadband/regulations-phone](https://sse.co.uk/help/phone-and-broadband/regulations-phone)

## 4. International calls

Calls to international destinations are set by price band. The complete list of all countries by price band is available on our 'Guide to International Calls' found on our website at this location: [sse.co.uk/help/phone-and-broadband/regulations-phone/](http://sse.co.uk/help/phone-and-broadband/regulations-phone/)

The standard fixed line rates apply to standard landline numbers. Calls to International special or higher rate services will be charged at the mobile rate for that country.

The table below summarises the charge band groups that are applicable to international destinations for both fixed and mobile numbers. These rates are per minute and are applicable at any time of the day and week, unless inclusive in the package. The call set up fee is applicable to non-inclusive calls for all charge bands, except for A1 destinations.

The Service Charge is decided by the business being called. The Service Charge for 084 numbers is capped at 7p/minute, and hence the maximum call charge for these numbers can be 22p/min. For 087 numbers the maximum Service Charge can be 13p, and therefore the maximum total call rate including our Access Charge would be 28p/min. 09 and 118 numbers have considerably higher Service Charges, but are subject to the same Access Charge. ## 9. Text Relay Calls

These are services available for use of customers who are or are communicating with hearing or speech impaired people and require the use of a text phone or other device with a keyboard. You can use Text Relay Services with a textphone, telephone, mobile, or use your PC as a textphone.

More information on this type of service is available on [www.ngts.org.uk](http://www.ngts.org.uk)

The cost of a Text Relay call will be that charged by the Operator of the Text Direct Service. However a rebate will be applied to all or part of the text element of all calls when either or both ends are in text mode.

Call charges will also be adjusted by giving you a rebate on your bill so that the final charges for standard calls (to numbers beginning 01, 02, 03,) are no greater than the standard rates of your package. No rebate shall be applicable for other calls including:

- Directory Enquiries;
- International destination numbers;
- most non geographical numbers starting with 08 and Premium Rate Services;
- Personal Numbering Services;
- Third Party Services such as the Operator services;

Rebates will be shown on your bill and may cover the value due for several calls.

The rebate(s) due will normally be shown on the same bill as the relevant full call charges but may occasionally be shown on the next bill.

## 10. Directory Listing Services

When you set up a new phone line with SSE or move house, we offer the following directory entry options, free of charge as detailed below. Please note that your number is only provided if someone knows your name and address.

- 1) Standard entry of your name, number and address within telephone directories, including through Directory Enquiry services; or
- 2) Your details are made available through Directory Enquiry services only, but will not appear in any standard telephone directory, whether paper or online; or
- 3) Your details are made 'ex-directory', so that they will not be available through either standard telephone directories or directory enquiry services.

If you are transferring your line to SSE then whichever directory entry option is set up on your line, it will remain the same. However you can request a change through our Customer Services team at any time.

In addition, we can arrange to include additional entries within the telephone directory, but these incur the following monthly charge, inclusive of VAT:

<b>DQ Entry – Standard</b>	<b>£24.47</b>
<b>DQ Entry – Bold</b>	<b>£48.95</b>
<b>DQ Entry – Super Bold</b>	<b>£94.16</b>
<b>DQ Entry – Additional Word – Standard</b>	<b>£2.16</b>

## 11. Call rounding

Calls to local/national numbers, UK mobiles and international destinations are all rounded up to the next whole minute.

Calls to non geographic numbers starting with 084, 087, 09 and 118 are rounded as follows: the Access Charge is rounded up to the next whole minute, while the Service Charge is rounded up to the next second; the two charges are then combined.

Calls to all other numbers are rounded up to the next second unless otherwise specified.

All call costs are rounded up to the next penny, prior to the VAT being added.

## 12. Billing frequency

New customers will, by default, receive monthly bills with itemised call charges. This bill can be requested as paperless free of charge or through the post for a monthly fee of £2 inclusive of VAT.

Monthly bills are usually issued on a 30 day cycle plus or minus a few days, starting from the phone service start date. Only one bill is issued for phone and broadband services.

We also offer quarterly bills on request and these are free of charge whether paper or paperless copies are requested. The issue date of a quarterly bill can be variable, and usually it is produced every 90 days, plus or minus a few days.

## 13. Miscellaneous charges

The following charges are applicable in the circumstances as specified and are only applied to recover our direct costs. All charges include VAT:

### 13.1 Debt management charges

<b>Phone restriction charge</b> If we have to restrict your phone service due to the non payment of your bill. This charge is applied as a one off.	<b>£6</b>
<b>Search charges</b> If we are unable to reach you regarding the outstanding payment of your bill, we may run a search to ensure that we still have the right address for you.	<b>£2</b>

This number porting charge is as below. Occasionally it may not be possible to transfer the number across to our network and we may have to assign you a new number, which would be free of charge. If the request for number porting is accepted by the other network, it should be completed within one working day. If there is any delay, you may be entitled to claim compensation from whichever party has caused that delay.

To raise the matter with us, please contact our Customer Services team. If we are due to pay you compensation, we would apply the relevant credit to your account.
