

Free boiler service worth £90 when you switch to SSE Fix and Protect v2

SSE Fix and Protect v2 – Free Boiler Service Terms and Conditions

1. Customers who sign up to SSE Fix and Protect v2 from 2nd September 2020 to 22nd February 2021 will be eligible for a free boiler service worth £90. Price based on our boiler service when booked separately and correct as at 2nd September 2020.
2. You must be the homeowner, on the gas network and with a mains gas boiler. Geographical exclusions apply.
3. We will contact you by telephone to arrange a suitable date and time during the term of your SSE Fix and Protect v2 tariff to carry out your free boiler service. It is your responsibility to provide us with up to date and suitable contact details. Your boiler service will be carried out between 1st March 2021 and no later than 60 days before your tariff end date.
4. If you cancel your SSE Heating Breakdown Cover (as part of SSE Fix and Protect v2) at any time after your tariff start date and more than 60 days before your tariff end date you will not be eligible for the free boiler service. If you have already had your free boiler service, no additional termination fees will be applied over and above those specified in your SSE Fix and Protect v2 Terms and Conditions.
5. The free boiler service will apply in year 1 only. Only one free boiler service per household. The boiler must be at the same address as your SSE Fix and Protect v2 tariff.
6. Full details of the boiler service can be found in the General Terms & Conditions for Boiler Service which are available at <https://sse.co.uk/home-services/regulations>. Where there is a conflict between these Terms and Conditions and the General Terms & Conditions for Boiler Service then these Terms and Conditions will prevail.
7. This offer is available from 2nd September 2020 to 22nd February 2021 and subject to the availability of SSE Fix and Protect v2. We reserve the right to withdraw SSE Fix and Protect v2 at any time.
8. The free boiler service will be carried out by one of our Gas Safe registered engineers or an approved partner.
